

My favourite subject

My favourite subject is arts because I love painting pictures and the teacher is very friendly. Just like all teachers in school. But there are also more subjects that are a lot of fun, for example music and biology. In music we often write stories and watch films and in biology we sometimes work with microscopes.

My timetable (6th grade)

Lesson	Monday	Tuesday	Wednesday	Thursday	Friday
1	PE	English	arts	history	music
2	PE	English	arts	history	music
3	German	Religious education	maths	individual learning	geography
4	German	Religious education	maths	individual learning	geography
5	maths	German individual learning	German	English	maths
6			German	English	classroom
7					biology
8					biology

Our school

Heinrich-Böll-Schule
Hattersheim

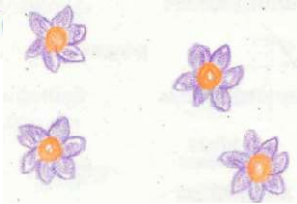

Welcome to our school

big and nice classrooms
lots of things to learn and do
teachers ideas
creativity
working groups fun
play games
friends big gym individual interests
big schoolyard
possibilities support love

About me and my school

My name is _____ and the name of my school is HBS. The HBS is in Hattersheim and the street is "Schoolstreet 100". We have a "cooperative" school form. It is a KGS. A KGS is a cooperative comprehensive school. I think the HBS is a nice school because you can feel comfortable there. This year it celebrates its 50th birthday. At our school there is also an orientation stage in the fifth.

HEINRICH-BÖTTCH-SCHULE!

Our classroom

My classroom is big. We have eight windows, a lot of tables for students, posters on the walls, three blackboards, a table for the teacher, a white board, chairs, a trashcan and a wardrobe. I like my classroom because it is clean when we do our class.

Classroom rules

We must do our homework because we need it for the lesson.

We must not run in the school-building because we can get hurt.

We mustn't chew a chewing gum because students might stick it under the table.

We must not be late because we have to arrive on time.

We must not eat in the classroom because then the classroom will be dirty.

My favourite subject

My favourite subjects are maths and English. In maths we make amazing things. We make mind maps in maths and in English and we write texts about heroes or horoscopes in English. In maths we make lapbooks and we learn interesting things and in English we learn a lot of vocabulary and a lot of exciting topics.

My timetable

Lesson	Monday	Tuesday	Wednesday	Thursday	Friday
1	German	History	maths	German	music
2	German	History	maths	German	music
3	Biology	Religious	English	individual learning	English
4	biology	education	English	learning	English
5	Class council	Maths	PE	maths	arts
6	individual learning	individual learning	PE		arts
7	geography				
8	geography

About me and my school

The name of my school is Heinrich-Böll-School. The school is in Hattersheim. My schoolyard is big. We have more than 1400 students at my school. My class is fantastic because they are all not too loud. We have a great teacher. This school is a "Kooperative Gesamtschule". I can concentrate very well. We have a big library with amazing books. We have a drink machine with delicious drinks and at the kiosk we can buy fantastic food and drinks or snack. At my school there are also nice events.

Our classroom

My classroom is big. We have a big blackboard for homework, that's nice. There are many tables and many chairs in the classroom. On the wall there is a mirror and in the classroom there is a white cupboard. We have three windows. My classroom has a big door. That is my classroom.

Classroom rules

In my classroom we mustn't chew chewing gum because then it is under the tables. We mustn't speak during the lesson because then we can't learn well. We must do the homework that we can repeat the topic and can participate in class and we must be friendly and respectful that we don't fight. That are our classroom rules.
